### **It's All From God's Bounty**

*Deuteronomy 28: 8-14*

It is good to be reminded that the earth is the Lord's and absolutely everything that is in it. Whether the cattle on a thousand hills, the fish that swim the sea and ocean, or even the fowl that flies through the air, everything is a part of God marvelous bounty including you and me. As the Israelites escaped from the grip of pharaoh, God continuously shared His bounty with them. Even after crossing the Red sea He continued to feed them with manna and quail from heaven. So many similarities of theirs are just like ours. We too, have come through many toils and snares and God has not relinquished His blessings on our lives. Just as Moses went up to Mount Sinai to receive the Ten Commandments in his delayed return the Israelites became forgetful and built a golden calf. We too sometimes do not hear from God as quickly as we want and forget He has been the one that has seen us from our yesterdays and the one to see us to and through our tomorrows. Those bountiful blessings seem so easily to be related to physical blessings that we long for. But also in His bounty are a few other blessings that are so needed as well. His bounty of wisdom, we most definitely is needed as to the directions God would have us travel. His bounty of courage that we too need to step out on faith when we are so insecure of our next move in life. His bounty of mercy and forgiveness when our best efforts are mistaken and we fall short and become sinful. His bountiful power that protects us and gives us peace they too we need as well. Our lives are in His hands and we ought to be and are very thankful that He has at His resources the bounty to take care of His children.

Be Blessed.

Rev. Dr. Keith L. Reynolds, Pastor
